Contracted Services

CONFERENCING SERVICES

Many Department of General Services (DGS) Consolidated Centrex, CentraNet and all CALDEX locations are equipped with several types of Audio-Teleconferencing services. TD consolidated services offers these standard features:

- **Add-on/3 Way Calling** — Use for conference needs of three connections or less.
- **Six-port Conference** — Establishes a conference call of up to six parties.
- **Meet-Me Conference** — Arranges a conference call of up to 30 conferees by having conferees dial a pre-arranged number.
- **Pre-set Conference** — A station establishes a conference call of up to 25 predesignated conferees by dialing a specific number.

For Audio-Teleconference calls that require operator handling or for conference calls that exceed the capacities of the Centrex, CentraNet and CALDEX offerings, agencies may contact their local exchange or interexchange carrier to obtain information and rates on their offerings.

See Chapter 0101.0, TD Reference Guide, for all TD contact information referenced within this chapter.
